Longsealer

Operation box

Film joint plate for manual joint

RDA

【NS450 Features】

- NS450 is specialized for instant dry noodle.
- More simple and compact, but remains durability as N450A.
- Adopting a servo motor at film drive part, registration control system gets more accuracy.
- Successor model of N450 that has been appreciated all over the world.

【Optional Items】

■ RDA : Roller divided autofeeder

To divide products one by one at equal intervals.
(NS450/T Only)

■ Printer

By choosing Inkjet, thermal or hot-roll printer depending on use, to print such as "manufacture date" or "best-before date". With printing inspection device, ink squeezeout and miss printing could be detected.

■ Cutter

Easy to open package, cut "I" , "V" or "Wave" type slit on the edge of endseal.

■ Sachet dispenser

To dispense sachet one by one onto or under products at infeed conveyor.
