Notice of Parts Price Revision

Dear Valued Business Partners,

As you are aware, there has been a recent surge in the prices of purchased parts and raw materials, as well as a continuous rise in manufacturing costs. Since our last price revision in 2022, we have been working to reduce expenses and streamline operations; however, it has become difficult to maintain our current prices through corporate efforts alone.

Therefore, although it is with great reluctance, we will be implementing a revision to our supply prices effective Wednesday, April 1. We kindly ask for your understanding of these circumstances.

Please contact your dedicated sales representative for details regarding the revised prices of individual parts.

Sincerely,

Translated with DeepL.com
